

# KONRAD DUNSKI / JUNIOR SOFTWARE DEVELOPER

07801297306 / konrad.dunski@gmail.com / <https://github.com/k-dun>

## TECH SKILLS

---

<b>FRONTEND:</b>	HTML, CSS, TailwindCSS, Javascript, React, Cypress
<b>BACKEND:</b>	Javascript, Node.js, Express, Jest, Ruby, RSpec
<b>DATABASES:</b>	MongoDB, Mongoose, PostgreSQL, SQL
<b>DESIGN/TOOLS:</b>	Canva, Figma, Github, VSCode
<b>METHODOLOGIES:</b>	Agile, Test-Driven Development (TDD), Object-oriented Programming (OOP)

## TECH EXPERIENCE

---

**Makers Academy**, Software Development Trainee (London) **Jan 2023 - May 2023**

- Developed 3 full-stack web apps utilising **SOLID and OOP principles**,
- Optimised web apps through effective **debugging, unit testing and TDD** processes,
- Led scrum teams using **Agile methodologies, pair programming and code reviews** to ensure my teams were aligned and delivering highest-quality code.

## PROJECTS HIGHLIGHT

---

**CAREER COMPANION**, MongoDB, Express, React, Node.js, **OpenAI API**, HTML, TailwindCSS

SaaS focused on fulfilling needs of job-hunters, including: job applications tracker, CV builder, custom Cover Letter generator and a job interview simulator powered by **ChatGPT**.

**MAKERS BNB**, Ruby, Sinatra, HTML, CSS, PostgreSQL, RSpec

An Airbnb clone allowing users to list and rent spaces.

## WORK EXPERIENCE

---

**NATTERJACKS**, Assistant Store Manager (London) **Oct 2010 - Apr 2022**

- Setting KPI's and sales targets,
- Led, assessed and supported teams in achieving the above,
- Increased our store's revenue by ~**130%** in the first 3 years of my tenure.

## EDUCATION

---

### STEFAN ZEROMSKI COLLEGE (Poland)

Sep 2005 - Jun 2008

- Graduated with 5 A-Levels, including **Advanced Maths**, Advanced English and Polish Lit.
- I founded and led the extra-curricular **IT Club**, where we learned basic programming using **C++, Delphi and Turbo Pascal**.

### RESPONSIVE WEB DEVELOPER CERTIFICATION (FreeCodeCamp)

Jul 2019

### FUNDAMENTALS OF DIGITAL MARKETING CERTIFICATION (Google)

Nov 2019

## ABOUT ME

---

I have over a decade's worth of very hard-earned soft skills, including **highest level communication** and leadership attributes.

However, I strongly believe it's the "**intangibles**" I bring with that make me an exceptional prospective employee.

I am passionate about **solving problems** and **building solutions**. That's what I do best and what excites me the most. Currently, I'm working on getting my foot through the door of the tech industry. Next, it's excelling within it.

**I love tech**. I love its ubiquitous nature. I love the impact one can have by utilising it. I love it's ever-changing landscape and constant need for adaptability.

I'm an **ambivert** and it's possibly the root of all my greatest strengths.

My extrovert qualities and sense of humour make me a great **team-player**. I make everyone feel safe and heard in my presence.

The introvert side gave me great **introspection** skills, always allowing me to adapt and do what's necessary to solve whatever problem I'm presented with.

Both those combined help me find compromise when needed, as well as **strength** and **assertiveness** when necessary.

## HOBBIES

---

- **I love writing**. In 2022 I created a newsletter called **Fairly Unbiased Crypto Thoughts**, on all things **Web3** and crypto, including regular segments on the Flow blockchain ecosystem and NFTs. I also regularly write on my own **Substack** discussing my bootcamp experience and variety of tech and tech-adjacent subjects.
- I obsessively listen to podcasts, such as: "**The a16z Podcast**" (focused on tech, culture trends and future of software), "**Indie Hackers**" (interviews with bootstrapped SaaS founders) and "**My First Million**" (lighthearted and entertaining tech entrepreneurship talks, sprinkled with amazing ideas).
